

2023 GRI and SASB Tables

April 2024

What is the purpose of this document?

We aim to provide detailed and transparent information about the progress we are making against the commitments and targets outlined in our sustainability action plan, This is Forward.

In this document we share our performance over the past 12 months against the Global Reporting Index (GRI) and the Sustainability Accounting Standards Board (SASB).

Who is this document for?

We aim to share our sustainability data in an accessible format, enabling anyone to gain deeper insight into the progress we are making on specific topics.

Contents

- **2023 Global Reporting Index** (page 2-14)
- **2023 Sustainability Accounting Standards Board** (page 15-16)

For more information about the progress we are making on sustainability, please see relevant sections of our 2023 Integrated Report.

2023 Global Reporting Index

Reporting principles

Based on the material issues identified by our internal and external stakeholders, we've mapped these against the Global Reporting Initiative's (GRI) Standard and identified the external boundaries associated with each. The reporting information in our [2023 Integrated Report](#) and our [2023 Sustainability Group Data tables](#) has been developed carefully to cover the GRI Standard topics on an issue-by-issue basis. Within these aspects, the CCEP boundary always covers all territories^(A) where CCEP has operations.

CCEP has reported in accordance with the GRI Standard for the period from 1 January, 2023 to 31 December, 2023.

In addition, in conjunction with our 2023 Integrated Report and 2023 Sustainability Group Data tables, it complements and serves as part of our 2023 Communication on Progress (COP) to the United Nations Global Compact (UNGC).

We will continue to support the 10 principles of the UN Global Compact.

Damian Gammell
Chief Executive Officer
Coca-Cola Europacific Partners

304-1	Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas	<p>2023 Integrated Report; Forward on water page 47</p> <p>Our approach to biodiversity and forest stewardship</p> <p>In 2022, we completed an initial assessment against this indicator for our operations in Europe only. This assessment was based upon site biodiversity risk assessments where available, our existing water risk assessments (Source Vulnerability Assessments), and a review of our European site locations versus Natura 2000 and IUCN locations within 0km of our facilities. This assessment determined that we could have 2 production facilities in close proximity to IUCN/Natura 2000 locations. In 2023, in partnership with The Coca-Cola Company and Coca-Cola Hellenic Bottling Company, we assessed our nature-related impacts by completing Steps 1 and 2 of the Science Based Targets Network (SBTN) framework. The goal of the SBTN is to foster corporate action to tackle biodiversity decline and nature loss, and ensure its full recovery by 2050. In Steps 1 and 2, we began to identify our most significant impacts on nature, and where they occur along our value chain. In 2024, we aim to carry out Step 3 of the methodology – measure, set and disclose targets to address our impact on nature and biodiversity.</p> <p>Data currently not available. We will evolve our reporting, based the biodiversity risk assessment of our value chain, to expand our disclosure on this indicator in the future.</p>

2023 SASB Index

In our 2023 Integrated Report, our 2023 performance data and a series of online case studies we report the progress we've made on This is Forward, our sustainability action plan.

The report has been prepared in accordance with the Global Reporting Initiative (GRI) principles (pages 2-14 in this document). It has been independently assured by EY.

The work completed by EY and their conclusion is described in the [Independent Assurance Statement](#).

Currently, we do not track all metrics included in the Non-Alcoholic Beverages Standards but will work towards including more data in the future.

Topic	Accounting Metric	Category	Code	Response
Fleet Fuel Management	Fleet fuel consumed	Quantitative	FB-NB-110a.1	2023 Sustainability Group Data tables : page 7 - 965,301 GJ
	Percentage renewable			2023 Integrated Report : Forward on climate - page 40 In 2023, 30% of our cars and vans in Europe were plug-in hybrid electric or pure EVs.
Energy Management	Operational energy consumed	Quantitative	FB-NB-130a.1	2023 Sustainability Group Data tables : page 7 - 6,122,2896 GJ of energy consumed (excluding fleet vehicles)
	Percentage grid electricity			2023 Sustainability Group Data tables : page 2 - 11.3% percentage of energy consumed (excluding fleet vehicles) that was supplied from grid electricity.
	Percentage renewable			2023 Sustainability Group Data tables : page 2 - 42.8% of energy consumed (excluding fleet vehicles) that was renewable energy.
Water Management	Total water withdrawn	Quantitative	FB-NB-140a.1	2023 Sustainability Group Data tables : page 12 - 26,142 (1,000 m ³)
	Total water consumed			2023 Sustainability Group Data tables : page 12 - 16,222 (1,000 m ³)
	Percentage of total water withdrawn in regions with High or Extremely High Baseline Water Stress		2023 Sustainability Group Data tables : page 12 - 49.9%	
	Percentage of total water consumed in regions with High or Extremely High Baseline Water Stress		2023 Sustainability Group Data tables : page 12 - 49.7%	
	Description of water management risks and discussion of strategies and practices to mitigate those risks	Discussion and Analysis	FB-NB-140a.2	2023 Integrated Report : This is Forward - our sustainability action plan - page 17 / Forward on climate - pages 37-40 / Principal risks - page 73 / Risk factors - pages 248-249
Health & Nutrition	Revenue from zero- and low-calorie beverages	Quantitative	FB-NB-260a.1	Monetary value not reported 2023 Integrated Report : Forward on drinks - page 17 - 48.3% of the products we sold in 2022 were low or no calorie.
	Revenue from no added-sugar beverages			Monetary value not reported 2023 Integrated Report : Forward on drinks - page 18
	Revenue from artificially sweetened beverages			Monetary value not reported
	Discussion of the process to identify and manage products and ingredients related to nutritional and health concerns among consumers	Discussion and Analysis	FB-NB-260a.2	2023 Integrated Report : Forward on drinks - pages 16-18 / Principal risks page 74 / Risk factors - page 249
